

Smart light show
Create an unique & stunning experience for the audience

For the first time in Vietnam, **wePix arena** - a light show application that brings immersive color experiences to spectators and creates unforgettable emotions.

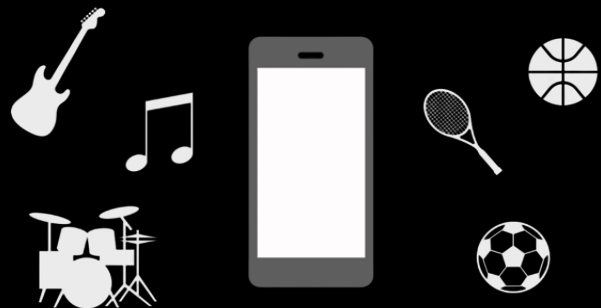

Our solution is very simple

wePix arena allows to display colors and flash modes on audiences' smartphones. The animations are programmed before the show. Turning the arena into a giant screen creates a **powerful emotion of sharing**.

No equipment required.
Only 4G or Wifi connection.

Ideal for
Music, sports events.
Events over 2000 spectators.
Sponsorship marketing.
Cheering for idols.

Spotlight projects in 2023

Muse - concert in Marseille

Muse - concert in Bordeaux

Taratata TV show - 30th anniversary concert in Paris

One Direction, Louis Tomlinson - concert in Paris

A magical moment for the audience and the artist

“ @emmacarena

I have stars in my eyes, thank you so much, it was so incredible.

“ @eL_rico

Couldn't be better, a thrilling moment, already an unforgettable memory, I wish we could go back in time.

“ @angiefong

I love it, love it!!! I will never forget this moment!!

“ @cy_douce

It was a magical moment. At the start of the tifo, I saw the band was so surprised and happy.

Why we rock

	wePix arena	Kpop lightsticks	LED wristbands
Cost	\$1-2/ person	\$30-150/ person	Min. \$2.5/ person
Setup time	Max. 6 weeks	2 months	2 months
Banner advertising	✓	N/A	✗
Complex animations	✓	✓	✗
No equipment required	✓	✗	✗
